The above plan creator(s) have agreed that others may use as much of the text of this plan as they would like in their own plans, and customize it as necessary. You do not need to credit the creator(s) as the source of the language used, but using any of the plan's text does not imply that the creator(s) endorse, or have any relationship to, your project or proposal

sample DMP Plan for workshop

Products of the Research

Approximately 5GB of data will be collected from open source and proprietary data file formats. This data will include spectra, video of protocols created, schematics and diagrams, and tabular data. Metadata created will include descriptions of samples, products and methods. This metadata will be created by members of the research group and PI.

Data Format

Data file formats include Microsoft Office (Excel, Word) as well as Google Docs and OpenOffice files. Open Source data includes _____. Data will be stored in the research office throughout the duration of the project, or on secure online data sites.

Access to Data and Data Sharing Practices and Policies

Question not answered.

Policies for Re-Use, Re-Distribution, and Production of Derivatives

Non-private Data produced for journal article publications will be submitted to the Libraries' Open Repository, the ORB. This data will be available for the general public indefinitely.

Archiving of Data

Data will be archived post-project by submitting code to SourceForge, supplemental data will be submitted to Figshare, with attribution to appropriate researchers. Private data will be archived using the Libraries' Rosetta software, and kept available for project researchers indefinitely.
